March, 30, 1906

Jim & Amy.

The day was misty.

Light and windy.

Went to the N.E.

On the sand-dune

from the old Adam

and the Cedar River

the sand was blown

about in clouds,

although it has been

very wet. The wind

is mostly 1 or 2 miles

(just a couple of days

ago) there was a

very heavy rain.

Certainly there are

no evidences anywhere

of any corals here, so
